Speaker Reviews

"The first time I heard Sue Ludwig speak I was immediately mesmerized! Her calm and poised demeanor, engaging and captivating storytelling quickly drew me in. I remember looking around the room to see if everyone was as engaged as I was and they were. It was almost as if I wanted to say 'are y'all hearing this? What an absolutely incredible story, lol' I opted to keep my exuberance to myself and just live in the moment.
I'm not sure Sue recognizes how amazing her story of starting the National Association of Neonatal Therapist - NANT is! I am equally obsessed with her book: Tiny Humans, Big Lessons and quote her all the time. I guess I am the perfect definition of a fangirl!!! As a speaker myself, I thought it necessary to share my thoughts with her and I did exactly that on her LinkedIn DM and what was borne out of that has been a lovely relationship."
